

Bulletin #2  
Southern Ohio Forest Rally  
May 09, 2018

To: All Competitors

Subject: Free Road Minutes

We are trying a new concept this year to help with the short transit times at SOFR, free road minutes. It is designed to allow teams with a problem a little time to deal with it.

Rules for implementation:

- Must be used in a 5-minute block, minutes cannot be split up in any way.
- Can be used only 1 time per timecard, per competitor.
- Competitors must enter the control after all other competitors on the same minute.
- Competitors must write and circle a "5" clearly in the space on the timecard marked "competitor marking in this column only" to signify they are using free road minutes.
- Control workers will score you as normal, per the minute you entered. Control workers do not need to know you are taking free minutes. Competitors will then not be penalized when the time cards are scored.
- If competitors are early or late from the 5-minute free road minutes window, normal time penalties occur.
- Competitors may use the free road minutes for any reason providing the Rally America rule book is not violated.
