

Bulletin #2006-015 30 – March - 2006

Subject: Water Injection for Open Category (Open, Group 5 and Group 2)

Overview: Only water is allowed to be injected into the intake manifold on vehicles with "water injection" systems on Open Category vehicles. No methanol, alcohol, or any other hydrocarbons are allowed in the "water injection" system. Trace amounts of methanol <2% by volume are allowed to account for trace amounts of temporary overnight antifreeze left in the system.

In no instance should anything other than water be contained in any tank in passenger compartment while the car is in competition. Washer solvent and brake fluid are flammable.

Stewards may interpret this bulletin as necessary to resolve penalties or protests.

Questions regarding this bulletin received by Rally America from licensed Drivers and Co-Drivers will be answered in writing.
